

PARENTS: Have a **tough question** and need someone to point you in the right direction? Seeking more information about **District practices and priorities**? Have a **suggestion** that will improve District services?

Introducing TeleLink

817.871.2317

A service of the Fort Worth ISD Parent and Public Engagement Office.

Beginning in February 2008, Parent Engagement Specialists will respond to your questions and concerns.

This new parent information line will also be used to call parents with reminders of:

- TAKS testing dates
- Report card dates
- Other items of interest to parents

As a reminder: If parents have questions about their child's classroom or school, they are encouraged to follow the Fort Worth ISD's recommended practice:

- First, discuss the issue with the classroom teacher to try to find resolution.
- If the issue is not resolved, then parents should contact the school's principal;
- Finally, if no resolution is reached, parents may call the appropriate central office.
